Guide to the Supplementary Information

This supplementary report was developed in response to requests from the Standing Committee on Public Accounts to incorporate changes to the Details of Revenue and Expenditure volume of the Public Accounts. The Public Accounts were reformed to provide more useful information to the public. The Details of Revenue and Expenditure volume was changed to disclose only out-of-scope employee salaries including Order-In-Council appointments, therefore a supplementary book was necessary to ensure access to all personal services information.

Included in this supplement is a breakdown of payments to individuals for each department in the form of a complete payment list as well as a summary showing the total amounts. A government wide summary of personal services payments has also been compiled.

In the Summary, employees are described by method of **Appointment** (ie. In-Scope, Out-of-Scope, Contract, and other miscellaneous appointments) and by position **Type** (Part-time, Casual, Labour Service, Permanent and Temporary). The Appointment category of "Other" includes Orders-In-Council, Honorariums, Judges, Minister's Assistants, Speaker's Orders and MLAs. Appointments that are In-Scope, Out-of-Scope, Minister's Assistant, Order-In-Council and Speaker's Order all have an Employee Type. Appointments that are Contracts, Honorariums, Judges or MLAs do not have an Employee Type and are categorized as an "Other Type". (These are presented using five dots in the Schedule of Payments.)

Payments for personal services, both general and extraordinary, are included in each department's summary. Extraordinary personal services includes compensation and severance payments. Revolving Fund payments are included where applicable.

The Details of Revenue and Expenditure volume lists and totals revolving fund personal services payments separate from other department personal services payments. However, the Supplementary Information book combines personal services payments of the department with the department's revolving fund personal services payments. Therefore, in order to reconcile the figures in this supplement to those in the Details of Revenue and Expenditure volume, the total amount of personal services paid by the revolving fund is presented separately in the summary.

In the Schedule of Payments, payees over $2,500 are listed individually while those under $2,500 are grouped together to form one total.

Summary

(Dollars)

Appointment	Employees					Other Types	Total
	Permanent	Temporary	Part-time	Casual	Labour Service
